Stand fast great Queen, in your successive Right,
Your Guardian-Angel has you still in sight:
No foreign Power can your Realms invade,
Nor factious Roman Imps in Masquerade
Invade your Right, the Lord will keep 'em down,
Who dares deny your Title to the Crown?
Therefore let all true loyal Hearts be seen
To pray, God bless this Realm, our Church, and Queen.

*The Judges sit not at Westminster on Candlemas-day, Ascension-day,
Midsummer-day, All-Saints, nor All-Souls Days.*

Unjust Desires are confin'd by Law,
'Twas made to keep unruly Men In Awe ;
'Tis Physick for the Body Politick,
Lay Law aside, all quickly will grow sick.
Use Lawyers when ye've need, but study Quiet ;
No wise Man will make Physick daily Diet.
But yet beware of that grey Badger-Hog
Of *W-dc-ck-Hall*, he is a clever D-g ;
Yet let him pass, I'll keep the rest on Score,
And never plague my Reader with him more,

Except he affronts me.

The Table of the Terms explain'd.

NOW every Term hath part, or all these Returns, viz. *Craftino Octabis*, *Quindeno*, *Tres*, *Mense*, and *Quinque*. Every Return also has a Basis or Know-day, from whence they take their reckoning, the signification of which are: *Craftino* is the Morrow after the Basis, as *Craftino Trinitatis* is the Morrow after *Trinity Sunday*, it being the Day of Denomination; *Octabis* is eight Days inclusively, *Quindeno* is fifteen Days after, and *Tres* three Weeks, *Mense* a Month, and *Quinque* five Weeks after.

Note, Now every one of these Returns has four Days to consist upon, the first whereof has double signification, for the one is the Day of Return, the other the Day of Effoyne, for the Defendant in a Personal Action, or the Tenant in a real Action to be effoynd'd, the second is the Day of Exceptions for the Plaintiff, to lay an Exception if no Effoyne be cast, that the Defendant shall not be effoynd'd or amerced; the third is *Returna Brevium*, or Day whereon the Sheriff must return the Writ; and the fourth is the Day of Appearance for Parties and Jurors in the Court of Common-pleas. But if any of these Days fall on a Holyday, that is no Court Day, as in *Easter Term* on *Holy Thursday*, or upon *St. John Baptist* in *Trinity Term*, in *Michaelmas Term*, on *All-Saints*, or *All-Souls Day*; and in *Hilary Term* on *Candlemas Day*: Or upon any Sunday, which are no Court Days; then must the next Day following serve for both, as if the Effoyner Day fall on Sunday, then Munday must serve both for the Effoynd Day and day of Exception, and so of the rest. These Days are of most use in the Common-pleas, where all Suits commence, *Ex*cept for *Laitats*, or other Process upon a Bill certain, it is upon a Day certain, *scilicet* *Die Lunæ prox. post Purif.* which always is reckoned from the Effoynd Day. In the Chancery Court none of these Returns are used, but only the Day of Appearance, which is *Quarto die post*: But if a *Capias*, *Exigent*, *Scire-Facias* or *Disfringas*, be executed after the Effoynd Day, by the Sheriff, or a Commission set upon, out of any of the aforesaid Courts, after the said Effoynd Day, it is neither justifiable nor warrantable.

*These Terms were made to keep cross Men in awe,
Not for the cunning Rook to pelt the Daw.*

The mighty Anna now does fill the Throne,
Who by just Right calls that great Seat her own;
Her Enemies before her Face shall fly,
And those that grudge her greatness pine and die;
Let nought but Loyalty in us be found,
And in her Triumphs let our Joys abound.

Distress and Vengeance surely does pursue,
And follow close a discontented Crew,
Disorder'd in their Minds, they're apt to jar,
And in their Breasts conceive a civil War:
Sure deep must be the Thoughts of those that sway
And wield the Sceptre at this time o'th' Day.

 All Hell-hatch'd Projects will be still disdain'd.

Of forc'd obedience the Springs move flow,
 When Treason drives, then all does swiftly go;
 Remember still the damned Powder Plot,
 By all good Christians ne'er to be forgot.
 The Sons of Rome do all as one combine,
 In Masquerade, the Church to undermine.

Astrological Observations.

1	12	7	39	4	21	The last Lunation was a New-moon
2	13	7	40	4	20	in <i>Scorpio</i> , in the 9th House, and <i>Mercury</i>
3	14	7	41	4	19	there also retrograde; this shews much
4	15	7	42	4	18	Tricking and underhand Dealing.
5	16	7	43	4	17	Some fly Villain catch'd in a Trap,
6	17	7	44	4	16	First Quart. 6th day at 7 morn.
7	18	7	45	4	15	for some Libel against the Government,
8	19	7	46	4	14	or some rogish piece of Forgery.
9	20	7	48	4	12	Many are the Ways of the Wicked,
10	21	7	50	4	10	but Time will discover their Intrigues.
11	22	7	52	4	8	The Square of <i>Saturn</i> and <i>Venus</i> will
12	23	7	54	4	6	give Uneasiness to Females; some fall

18	29	8	1	3	59	act prudently, and one will not seem to
19	30	8	2	3	58	be afraid of another. Therefore let us
20	31	8	3	3	57	go to the House of the Lord, he will

Now glorious Anna does the Sceptre hold,
 Let us praise God we're not to Ruin sold;
 Let no domestick Fears our Minds perplex,
 Then can no foreign Foe our Borders vex.
 Therefore let all true loyal Hearts be seen,
 To pray Long live great Anne our gracious Queen.

Astrological Observations.

1	12	8	11	3	49	This is the last Month of the Year,
2	13	8	11	3	49	and I pray God all Animositities may end
3	14	8	12	3	48	with it, that Nation might no more rise
4	15	8	12	3	48	against Nation, but that in our Days we
5	16	8	12	3	48	First Quart. 5th day at 9 night.
6	17	8	13	3	47	may see the People beat their Swords
7	18	8	13	3	47	into Plough-shares, and their Spears in-
8	19	8	13	3	47	to Pruning-hooks; that the Noise of
9	20	8	13	3	47	Drums and Guns may cease, and Instead
10	21	8	13	3	47	of Blood and Revenge, let nothing be
11	22	8	13	3	47	heard but Peace, Peace.
12	23	8	13	3	47	Now Christmas draws nigh, and I
13	24	8	13	3	47	hope those who abound with Plenty
14	25	8	13	3	47	Full Moon 14th day at 2 morn.
15	26	8	12	3	47	will take care to feast the Poor; re-
16	27	8	12	3	47	membring they are but Stewards, and
17	28	8	12	3	48	must one day give an account of their
18	29	8	12	3	48	Stewardships.
19	30	8	12	3	48	And thus I end these monthly Obser-

21	1	8	11	3	49	Left Quart. 21st day at 7 night.

Of the Eclipses this present Year 1711.

WHich are in Number Six, as follows: The first a small Eclipse of the Sun, on the 7th day of January, near 10 at Night, and so will be invisible to us.

The second is of the Moon, on January 23d, but invisible to us, it happening about our Noon; but to our *Antipodes* it will appear Total.

The third is a small Eclipse of the Sun, on February the sixth, a little past One after Noon, but not to be seen of us by reason of the Moon's great Latitude.

The fourth is of the Sun again on July the 4th, near seven a Clock in the Evening. It begins about 4 Min. past 7, and ends about three quarters past 8, Digits Eclipsed near 9; (that is) near 9 Parts of 12 of the Sun's Body will be dark'ned, as you may see by the Type in the Month of July.

The fifth is a total Eclipse of the Moon on July the 18th, in the Evening; it will appear a great Eclipse to the more Eastward Countries, but will be over before the Moon rises with us.

The 6th and last is of the Sun, on Decemb. 28. between 9 and 10 in the Morn. but invisible to us, but will appear a very great Eclipse to the more Southern Parts of the World. And so much for the Eclipses of this Year.

Three incomparable Remedies sold at Mr. Cope's, at the Gold-Ring in Shear-lane, by Temple-Bar.

First, a Fragrant Water for outward Use, without Mercury; being a safe and speedy Cure for the most inveterate Itch, Scab or Leprosy, when Purging, Bleeding, &c. has prov'd ineffectual, at 2 s. the Bottle.

Also a Linament, which certainly Cures the Piles either inward or outward; it prevents Ulcers, Fistula's, &c. which often happen, if neglected, or not safely cured; it soon eases the Pain, and dissolves the Swellings in a few times using, at 18 d. the Pot.

Likewise a very curious and pleasant Essence for Women that give Suck, and are troubled with Chaps, or sore Nipples; it causes no Smarting or Offence, but quickly hardens 'em, and is harmless and safe to the Infant as the Milk it sucks, anointing 'em when the Child has left sucking 2 or 3 times a day. Price 1 s. the Bottle.

An Account of Admiral Ruffel's Punch-Bowl, and of his Noble Treat at Cales, alias Cadiz in Spain, on Christmas-day, in the Year 1695, according to the Relation of Dr. Oliver, who was present at the Entertainment.

There was in the middle of a Garden of Lemon^s and Oranges (which Garden belonged to Don Pedro Valasco, Governor of Cales) a Fountain which was set with Dutch Tiles in the Bottom and Sides, and was made as clean as a Japan Punch-Bowl.

In this Fountain, on *Christmas-day*, was pour'd six Butts of Water, half a Hogshead of Strong Mountain Malaga Wine, Two hundred Gallons of Brandy, Six hundred Weight of Sugar, Twelve thousand Lemons, and Nutmegs and Sugar in proportion; The Admiral hired the Governor's House belonging to the Garden, and Resided there all the Winter.

He invited all the *English* and *Dutch* Merchants and Officers belonging to the Fleet to Dine with him; There was One hundred Dishes of Flesh-Meat, besides many other Dishes of Rarities; but such a Flesh-Feast was never seen in *Spain* before; he also Roasted an Ox for the Entertainment of the Company.

Dinner being ended, they marched in Order to the Fountain or Punch-Bowl, where on the Punch was floating a little Boat with a Boy in it, and Cups to serve it out to the Company. The Admiral began the Allies Healths; and having drank what they thought fit, they drew off, and in went the Mob, with their Shoes and Stockings and all on, and had like to have turn'd the Boat with the Boy over and so he might have been drowned in Punch: but, to prevent further danger, they suckt it up, and left the Punch-Bowl behind. This is a Comical, but a very true Relation, and worth noting, &c.

And now, kind Readers, I having for several Years presented you with Predictions and Observations, which have to the Admiration of many come to pass very near the time, as all the Fights, Sieges. &c. since the War was last proclaim'd, the Death and Remove of several Persons of Note in a General way; and

one thing in particular, when *Bavaria* lost his Country. What I have formerly hinted, you may see in my Almanacks of Years that are past, and so I shall not stand to repeat 'em again. I have also presented you with several Hieroglyphicks, in relation to the *Fr. King* and his Affairs, which have hit to admiration. I have also shew'd in several Almanacks what use has been made of them by the *Egyptians*, &c. All which has been kindly accepted. *Egypt* was indeed the fruitful Parent of many Miracles, and does boast herself to be one of the earliest Nurfses of Learning; for *Pythagoras*, *Plato* and *Herodotus*; Travell'd thither for the Knowledge of Nature, and even the *Grecians* themselves in the Days of *Solon*: but the *Egyptian* Priests, to whom it belong'd to teach, did never divulge their Doctrine but in Shadows, or some dark Representation, yet sufficient to denote the matter they intended, and more significant many times than Words cou'd do, but yet not so obvious as to be understood by the Vulgar; by which means they thought they kept their Mysteries from Prophanation, especially those relating to their Gods, &c. were wrapt up in visible Shapes and Forms of Creatures, whose Inclinations and Dispositions did lead to the Knowledge of the Truth, intended for Instruction, and these were call'd Hieroglyphicks; the Name is deriv'd from two Greek words, which signify *Sacred*, and *to Engrave*, or as much as to say, a Sacred or Holy Engravement, for all their Divinity, Philosophy, and choicest Secrets were comprehended in these Characters. The *Egyptians* by this means thought to render their Knowledge immortal, and engrav'd 'em on Marble Pillars long before Paper was known, which is said also to have its Original from the same Country, being compos'd at first of the Flakes of certain Reeds growing on the Banks of the *Nile*, call'd *Papyri*, moistned by the glutinous Water of the River, then press'd together, & afterwards dry'd in the Sun, as is evident by the following Verses of *Lucan*, English thus:

" *Memphis* yet knew not how with Reeds to Frame
 " Her Books, but Birds and Beasts Letters became;
 " And Animals engrav'd on lasting Stone,
 " With Magick Tongues, Learning preserv'd alone.

I have told you formerly how things were represented by Hieroglyphicks. The following is a Bull tied to the Tail of a Ram, with a Crab-Fish on his Back, and *Virgo* underneath weeping.

The Hieroglyphick.

The foregoing Hieroglyphick is a farther Confirmation of all those past in my former Years, and of Her Majesty's Power and Authority over the Kingdoms of Great Britain and Ireland; it also shews the Conquest of France, or the Ruin of its Polity, which is signified by *Virgo* weeping. By all the Figures past you may behold the Power of France dwindling away; and if that ambitious King has not hearken'd to Terms of Peace, he must expect to see his Country ruin'd; *For the Lord has broken the Staff and the Scepter of an Evil Ruler: He that smote the People in his Wrath with a continual stroke; He that ruled Nations as it were in his Anger, is now brought low, even to the sides of the Pit.* The Ram you may observe signifies England, the Bull Ireland, and the Crab Scotland. Holland is also signified by *Cancer* or the Crab, which is our strong and united Ally. So that now I hope the time is come that the Prophecie of the Great *Nostradamus*, (that Excellent Astronomer and Physician to Henry II. Francis the 2d, and Charles the 9th, Kings of France) will be fulfill'd, which signifies a General Peace all Europe over, in French as follows.

*A la fin le Loup, le Lion, Bœuf & l'Asne,
Timide dama seront avec Mastins,
Plus ne Cherra a eux la douce Manne,
Plus Vigilance & Custode aux Mastins.*
English.

*At last the Wolf, the Lion, Ox and Ass,
Fearful do, shall be with the Mastiff's
The sweet Manna shall no more fall to them,
There shall be no more watching and keeping of Mastiff's.*

The Annotations on the Place thus Explain it.

This is a Prognostication of a General Peace all Europe over; and that the sweet Manna shall no more fall to them, is, that the Europeans shall no more be fed with Manna, as the Jews were in the Desert, but shall pass to the Land of Promise, that is, of Peace and Quietness. Thus far *Nostradamus*.

Peace makes a pleasant Sound, I like it well;
Domestick Jarrs I hate, pray don't Rebell.
The Woman's Cat, that did her Mistress fight.
Made th' Dame cry out, Pray God stand with the Right.

NOW

Now pray judge, if this Cat were not a Rebel, and ought to be hang'd. *Nostradamus* intimates in another place, that the *Fr. King* shall cause his Scepter to flourish upon three parts of the *Spanish Netherlands*; but at last his Armies shall be brought into great distress, and those that take his part shall be put to flight.

Unto which I shall add one Prophecy of *St. Hermas*, Bp. of *Philippi*, who in his Book of the Church does represent the future State of her, by a fourfold Vision. In the first Vision, says he, I saw the Church in the Form of an Old Woman sitting in a Chair. In the second, says he, I saw her in the Form of an Old Woman standing on her Feet, having a Young Woman's Face, but the Hair and Skin of an Old one. In the third Vision he says, he saw her in the Shape of a Young Woman fair and comly, but with the Hair of an Old Woman. And in the 4th and last Vision, says he, I saw the Church in the Shape and Likeness of a Young Woman fair and comly. I beheld her, said he, as a beautiful Virgin, or New-married Bride, goodly and gay, coming forth of her Bride chamber. By which Visions he tells us, it was reveal'd to him how the Church shou'd fall by degrees into divers Deformities and Corruptions, and decline from her Primitive Integrity and Purity, and that many Schismatical Members shou'd afflict the Head, and make it sick, but that in the End she shou'd by degrees be restored to her pristine Beauty, for her Change shall be as great, as if an Old Woman shou'd become Young again, or one deformed and wrinkled become both gay and beautiful. Then will the Bridegroom go forth to meet his Bride, she will look like the Rose of *Sharon*, or as the Lilly among the Thorns; she will look fair and comly with Dove's Eyes, and her Locks like the Hair of the Flocks that appear from Mount *Gilead*.

Christ has a Spouse, always constant and true,
In spite of all the Pope, and De-il can do;
The Scarlet-Whore, and all her bloody Lumps.
Wait for her Blood, like ravenous, bloody Pimps.
Which brings me next to consider the four Seasons of the Year.

And

And first of the Winter Quarter.

THis cold melancholy Quarter commenceth at such time as the Sun touches the first Point of *Capricorn*, or the Earth *Cancer*; take it which way you please. This hapned on *Decemb. 10. 1710*, at 16 Hours P. M. or more plainly to be understood on the 11th Day, at 4 Clock in the Morning; at which time, about 12 degr. of *Scorpio* Ascends the *Horoscope*; and the latter End of *Eso* on the M. C. or 10th House, the *Sun*, *Jupiter*, *Venus*, and *Mercury*, in the 2d House, the *Moon* in the 3d, *Mars* in the 10th, and *Saturn* in the 9th: and thus stand the Heavens at this time. Now the Peoples Eyes will begin to open, and see their own Errors; *If the Blind lead the Blind, both must expect to fall into the Ditch.* Matters now seem to carry a good Face; but as *Saturn* is placed, he will stir up some troublesome Spirits, who under the Name of Religion will be ready to act Rebellion; have a care, the Seed of Evil-doers will never be Renowned.

There are some Aspects this Quarter that point out Sorrow to some Females of Note; I do not say it shall happen altogether in *England*. Some young Clerk perhaps may have a check for doing more than in duty he ought; a Man may as well over as under-do. *Mars* in this Quarter comes to an Opposition of *Venus*, and the common Dislemper will be much in fashion. The latter part of this Quarter seems to be of a more healing nature than the former part; yet Restless Spirits will be still at work; and many that thought they had sure footing, will now find they are in a sliding Posture. The Diseases of this Quarter are such as will afflict the Heart; many Bodies will abound with Cholerick Humours; from whence violent Fevers may be expected, the Stone in the Kidneys, Pain in the Knees, and yet notwithstanding the Time of the Year, the Small Pox may be more common than usual. And thus ends this Quarter with the following Verses. And

Now Captain Winter with his blast'ring Crew,
Marches along, and makes a Muckle Doe;
Lays his Commands on all, he strips the Earth
Of all that in the Spring, her Womb brought forth.
She's

She's stript of all, looks barren, bare and poor,
 Till *Phæbus* does again new Life restore.
 None 'scapes his Rage, but all things must obey,
 As well as Earth, he checks the raging Sea;
 He Paves the Rivers with an Icy Stone,
 And sets it fast that Men may walk thereon:
 He Cloaths the Fields with White instead of Green,
 And nothing of the Summer Beauty's seen.
 Cedars, as well as Shrubs, must all submit,
 And Passively obey, as he thinks fit.
 When he does bluster, who dares once oppose,
 But rather meekly wear his frozen Cloaths.
 Nothing in Nature's Frame dares once rebel;
 Nothing but Rebel Man, and Angels, fell.

Which brings me to the Spring-Quarter.

AND it does Commence at such time as the Glorious
 Lamp of Heaven, the Sun, touches the first Point
 of *Aries*, or the Earth *Libra*, which is this Year on
 March 9th, at 18 h. 1' P. M. that is more plainly on
 March the 10th, one Minute past six in the Morning.
 Here we have the very beginning of *Aries* Ascending,
 and the beginning of *Capricorn* on the Mid-heaven;
 the 4 Cardinal Signs just touching upon the 4 Angles;
 the Sun is immediately Rising, the Moon and *Venus* in
 the Ascendant; *Saturn* is in the 4th Retrograde, *Jupi-*
ter in the 10th, *Mars* in *Leo* near the Cusp of the 6th, and
Mercury located in the 12th. And thus are the Planets
 disposed of at this Ingress. The former part of this
 Quarter will be taken up in Consultation about great
 and weighty Matters. Many places under *Cancer* will
 meet with Trouble; an Uneasiness in *Constantinople*; the
Turk seems angry with some Neighbour; but yet the
 difference seems to be reconcil'd again. *Venice* and *Ge-*
noa are both concern'd; some part of *Prussia* disturb'd,
 and so is *Burgundy* also. *Mars* has been playing his Pranks
 in *Leo*, Retrograde, and is now become Stationary to
 direction; so where there is Employ for the Soldier,
 he will stir to purpose. *Italy* seems to be disquieted,
 and *Rome* itself Cap-sick. *Cremona* out of order, and
 many other Places, as *Ravenna*, &c. but in an ill con-
 dition.

dition. Some Officer of State this Quarter is removed by Death, or Turn of Affairs; and some Clerk meets with Disgrace. Many Heats, Feuds, and Cholerick Passions this Quarter; and the Sons of *Belial* sowing the Seeds of Discord, and Broaching divers Opinions to seduce the Ignorant: but towards the latter part of this Quarter things will seem to look more pleasant, and the Frenzy will be pretty well cur'd in the Enemies of our Church and Queen, &c. The Diseases of this Quarter are such as proceed from Heat, sore Eyes, Heat and Megrim, and the Head much disturbed; Fevers and all hot Distempers proceeding from Choler; Many Pain'd in the Back, Pleurisies, Convulsions, Yellow Jaundice and Pestilence in many places of the World. And thus I end this Spring-Quarter, as follows.

Now th' Fields by th' Heat o' th' Sun made warm and
Quickly forgets the Nips of Winters Cold, (bold,
By Nature's Law, appears the pleasant Spring,
And every Day procures some new-born thing.
Now walk the Fields, Ladies, take your delight;
Behold all things most pleasant to the sight.
The glorious Sun now darts his Radiant Streams,
And gilds each Flower with his Golden Beams.
Woods cloath'd in Green, the Choristers allow'd,
Warble their Notes, and th' Cuckow with the Crowd,
Comes up, Crys Cuckow, and lives without Care,
Sucks others Eggs, pray Citizens beware
Upon a Neighbouring Hill, both fresh and gay,
You may behold young harmless Lambs to play.
See Corn in Bloom, Trees deckt with Blossoms white,
And every thing that's pleasant to the sight.
Thus Nature plenteous Crops doth yearly yield,
And does adorn each Mead, and goodly Field.
Then why shou'd Man contend with Man, when he
Sees th' whole Creation does so well agree.

The Summer Quarter.

THis Quarter begins when the Sun touches the first Point of *Cancer*, or the Earth *Capricorn*, making the longest Day to us on this side the *Aequator*, it happens on *June 10.* at 18 h. 19' P.M. or *June the 11th.* at 19 min. past

past 6 a Clock in the Morning, at which time the very beginning of *Leo* does ascend, and about 5 degr. of *Aries* Culminates, the Sun is in the 12th located, and just separating from an Opposition of Retrograde *Jupiter*, who is posited in the 6th, the Moon and *Mars* in Conjunction in the third, &c.

Now the Opposition of the Sun and *Jupiter* as posited, will cause some difference about Religious Matters, Religion is a Cloak to cover abundance of Knavery; and pity it is, that Self-interest is not laid aside, and Religion better practis'd; some one of the Long-Robe degraded, and much under-hand Dealing. More Tricking in the way of Trade than ever. A long War has set Men to try their Wits.

In the 3d Month of this Quarter, the Sun suffers an Eclipse, and I fear a sickly Season. Pray God preserve this great City from Fire and contagious Distempers both this Year and for ever.

The Diseases that are like to be most predominate this Quarter, will be over-heating of Blood by intemperate Sports and Pastimes, Pestilential Fevers; also all Cholerick Distempers arising from Putrefaction of the Blood, and many troubled with Swellings and Pains in the Knees and Thigas, &c.

Sol now in Glory brings t' e longest Day,
But soon returns; he makes no stop nor stay.
Let each industrious Hand in time provide,
A fit supply against cold Winter's Tide.
All things speak Plenty now, and you thereby,
May satisfy your Taste, as well as Eye.
What in the Spring received a new Birth,
Is now produc'd full ripe by Mother Earth.
This brings me next to the Autumnal Fall,
Which brings the latter Fruit. Praise God for all.

The Autumnal Quarter,

TAKES its beginning when *Sol* enters *Libra*, or the Earth *Aries*, and is this Year on *Septemb.* the 12th, at 1 min. past 7 a Clock at Night. Now the Days and Nights are of equal Length, as in *March*.

At this Ingress, 18 Degrees of *Taurus* Ascends, and

21 Degrees of *Capricorn* Culminates, The Sun, *Mars*, *Venus* and *Mercury*, all crouded about the 6th House, *Saturn* in the 4th, near the Cusp of the 3d ; *Jupiter* in the 8th, and the Moon in the 11th. *Saturn* is in Square to *Mars* at the time of the Ingress, and might cause Duels Murders and Violence in many places, especially those subject to the Signs they possess, and many will be apt to lay violent Hands on themselves, many dissatisfied Spirits at work ; and when the Sun comes to the Square of *Saturn*, some Officer of State may expect a Remove.

The Diseases of this Quarter are such as proceed from Stoppage of Urine, Obstructions and great Disorder in the blood, the Breast and Lungs afflicted, a Weakness in the Reins, and Phlegm much abounds this Quarter.

The Sun to'ard th' Southern Tropick posts away,
And Nights do now grow longer than the Day.
The Earth grows faint, having paid Nature's due,
Trees, Plants, and Herbs begin to languish too.
A'l now becomes to th' Cold a Sacrifice,
And every Plant and Tree seemingly dies.
The Woods and Meads lay by their Summer's green,
And in short time no such a thing is seen :
The Trees and Plants are nipt with dire Frost ;
Then Winds do bluster, and the Sea is toss'd.
These ne'er Resist, but Passively Obey ;
Submit to Power, 'tis Power prescribes the way.
Thus Nature plays her part, and cannot we
Poor restless Mortals, all as well agree.
Come let's unite, and let us all be seen,
To pray God keep the Church, and bles the Queen.

Now farewell Book, Time calls, and thou must go,
Friends will prove kind, ne'er heed a carping Foe.
Great Britain can't contain thee, but more far
Thy Fame does reach the Court of *Hannover* ;
Where for some Years, O thank kind Heav'n for't,
Thou hast been entertain'd in Noble sort.
Well then, once more begone with what thou hast,
Tell 'em what is to come, as well as past.
I know full well thou ne'er wilt Pleasure all,
No Almanack ne'er did, nor never shall :

But yet post boldly on, and make no stay ;
 Rush thro' the Thorns and Bryars in thy way.
 Ne'er Cant nor Wheedle, be plain with every Man,
 And evermore pray God preserve Queen ANNE.

 Christ-Church Parish, South-
 wark, July 19th. 1710.*
